...cestry's Genealogical Series.

A: Cemeteries.

1. Katonah, Westchester Co., N. Y.

This Cemetery has been all removed on account of the large Croton Aqueduct reservoir to supply New York City with water. The bodies have been moved to many different places but the tombstones, in some cases have been destroyed: in others, sold for various purposes. When the copyist visited the Cemetery on Wed., June 3, 1903, about ⅓ of the tomb stones had been moved and he was informed by the Commissioners Office that no record had been made of the stones. The alphabetical arrangement probably destroys many facts of relation ship due to location of the stones: but all plots are kept intact and monuments noted. A Cemetery should always be plotted: but this is seldom practicable. The copyist, George Ancestry, M.A., would be glad to get any facts about the genealogy, descendants and ancestry of these families. The author will be very glad to get copies of other cemeteries, entire or in part, to include in this series—no matter where the cemetery is located. Additions and corrections will be gladly received.

NOTE:

A bracket [before names denotes a family plot.

Owner No. 170 denotes the plots as numbered by the N.Y. Acqueduct Commissioners.

Hoyt Bros. are undertakers in Katonah.

The Quaker mode of dating is kept.

The author has notes on many of these families.
